

THE MISSING TRAVELLER

LOCATION UPDATE

The trail has led you here — Riverside Market, Christchurch.

She was here too. She walked through this city alone — exploring streets, solving puzzles, chasing clues. And somewhere along the way, something shifted.

She stopped looking for places. And started looking for people.

This task is not about finding clues. It's about connecting.

Do what she did — explore, notice, connect.

YOUR TASK

You have 10 minutes. Split up and explore the market on your own.

Find something that speaks to you. It could be:

- Something you would actually buy
- Something that surprises you
- Something that reminds you of a place, a person, a moment
- Or simply — take a photo of something that catches your eye

You don't have to spend anything. But notice what draws you in.

WHEN YOU RETURN

Come back together and share what you found.

- What did you find — or photograph?
- Why that? What did it remind you of?
- What does it say about you — or about how you travel?

Listen to each other. You might be surprised what you learn.

NEXT STEP

The traveller left something behind here too.

Once everyone has shared — open the next evidence file.

A new evidence file has been recovered.

Go back to the main page and open:
